Acknowledgment

IELTS among pervasive language tests in the world is most demanded and widespread. It is considered as a high-stakes test due to its nature. Most immigrations and job opportunities are related to the results of this exam. Accepting in a well-known university or offering a good job is in need of delivering an IELTS number, which is mostly academic one. The higher number, especially academic one, the more opportunity to reach the goal. So, this pack is going to provide IELTS candidates with the authentic and practical solutions to get a high mark in the exam. IELTS is a proficiency language test which aims to assess the candidates' overall language proficiency. To do that, it follows some principals and rules that this pack is practicing to provide the candidate with the best practical and the most up to date official exams with their real examiner's tips to guide the candidate to achieve their goals by acing it. The best way to succeed in this exam is to get the candidates familiar with the rules, structures and rubrics of this exam. How is it administered? And how is it going to assess your language proficiency. To know the exam question face and how to answer them is guide the candidates greatly. Finally, how the examiners are going to assess the exam and what they are looking for in the exam is paramount in achieving the exam.

Introduction

Writing Task 1 is the same for the Academic and the General Training type of IELTS test, and it usually involves a data description Task.

Using English to write about data, especially describing charts and graphs, can be difficult for many people. This book gives you a structural process to use with data essays, and teaches you the most useful English vocabulary for these situations. It gives you 12 examples of Task 1 essays written to Band 9 standard, with examiner's comments explaining you why the essays are so successful. The final 2 models are intended as practice tests for Task 1, which you can use to try the process, skills and language that you learn in this book.

If you have experience of IELTS already, you may want to start by reading the 'Model Tasks' section from the Table of Contents, and then go back and read the 'Data essays: Our 3-step process' section. If you are completely new to IELTS, we recommend starting with the 'Data essays: Our 3-step process' section first.

This book also included a summary of the 10 most common mistakes that people make in Task 1 data essays - this may surprise you!
